

Defentect Group, Inc. Announces New Certified Integrator

Arkfeld Security Technologies To Sell and Install Defentect Solutions to Major Distribution Channels

NORWALK, Conn. (October 28, 2010) — Defentect Group, Inc. (OTCBB: DFTC), a developer and provider of immediate intelligent messaging applications and services, today announced Arkfeld Security Technologies, LLC as a certified integrator authorized to sell and install Defentect's Global Threat Awareness solution utilizing Defentect's Immediate Intelligent Messaging™ software platform. The technology provides an integrated, global management and communication platform to transmit detection data from radiological, as well as other CBRNE (chemical, biological, radiological, nuclear and explosive) sensors and event detection devices.

Arkfeld has several distribution channels that are important to Defentect, including Department of Defense agencies, the Department of Homeland Security, several Air Force bases around the country as well as state, municipality and non-government organizations. The partnership provides opportunities for both companies to expand their reach within the sector by offering innovative products to key players within the market.

"We are thrilled to welcome Arkfeld as an integration partner," stated Jeff Knapp, President and COO of Defentect. "Their Eagle Eye™ Mobile Solar Tower Surveillance System with optional CBRNE detection devices combined with our advanced software platform provides a significant competitive advantage to meet the growing demand for truly integrated security solutions." Due to security concerns, limited information on this product is available.

"The partnership with Defentect supports the expansion of our security services and existing product lines, while enabling us to offer unique combinations of solutions," said Dennis Selzer, President of Arkfeld Security Technologies, LLC. "We are excited to begin integrating Defentect's innovative technology, as it allows us the opportunity to offer flexible messaging options to our customers; not only for threat detection, but also for commercial applications."

About Defentect Group, Inc.

Defentect Group, Inc. develops and delivers intelligent messaging software solutions to facilitate the response to the detection of a threat. Easily integrated into existing security systems and compatible with many sensor types, Defentect's proprietary technology immediately notifies key personnel and first responders so that appropriate action can be taken when a threat event occurs. The recently launched DefenCall Personal Emergency Response service builds

on the same infrastructure and is available for smartphones. For more information, visit www.defentect.com and www.defencall.com.

About Arkfeld Security

Arkfeld Security designs and manufactures Eagle Eye, a modular, bullet-proof mobile command center with optional CBRNE detection systems, and Rapid Aqua Deployable Systems that supply thousands of gallons of clean drinking water a day. AST is a certified Defentect integrator, and certified installer of fiber and copper structured cabling solutions with a high-level of expertise in CBRNE technologies, as well as a custom designed armored vehicle modifications and restorations.
