

Defentect Group, Inc. Announces Support Website for DefenCall

NORWALK, CT – June 14, 2010 – Defentect Group, Inc. (OTCBB: DFTC), a developer and provider of rapid response software solutions for the security industry, announced today that the Company now has a live website that is dedicated to providing information and support for its recently announced SmartPhone application, DefenCall. Users of the application and those looking for information or to become a partner can visit www.defencall.com.

On June 4, 2010, Defentect announced the launch of DefenCall, which is the first SmartPhone application that enables a user to broadcast his or her exact GPS location and connect to a call center in the event of an emergency. When the panic button is triggered, text messages, email alerts, phone calls and real-time data feeds to other security systems are all combined into a customized response so trained personnel can take swift and appropriate action. The user's friends, family or caretakers can all be automatically notified and the user can be connected by phone to 911, a private security company, or someone else who can provide help.

"Since the launch of DefenCall, we have had an overwhelmingly positive response from potential partners, as well as users of the application," commented James Ackerly, CEO of Defentect Group, Inc. "We have been working vigorously to provide a place where anyone who is interested in using the program or partnering with us can get all of the information that they need. We feel that DefenCall.com is that place and we encourage anyone interested in the product to visit, inquire, and provide feedback."

About Defentect Group, Inc.

Defentect develops and delivers intelligent communications and messaging software solutions to facilitate the response to the detection of a threat. Defentect's proprietary technology immediately notifies key personnel and first responders so that appropriate action can be taken when a threat event occurs. The software platform is easily integrated with a wide variety of sensors, making it attractive to many potential partners and manufacturers. For more information, visit <http://www.defentect.com/>

SAFE HARBOR STATEMENT: This press release may contain "forward-looking statements" that are made pursuant to the "safe harbor" provisions as defined within the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words including "anticipates," "believes," "intends," "estimates," and similar expressions. These statements are based upon management's current expectations as of the date of this press release. Such forward-looking statements may include statements regarding the Company's future financial performance or results of operations, including expected revenue growth, cash flow growth, future expenses and other future or expected performances. The Company cautions readers there may be events in the future that the Company is not able to predict accurately or control and the information contained in the forward-looking statements is inherently uncertain and subject to a number of risks that could cause actual results to differ materially from those indicated in the forward-looking statements. Further information on these and other potential factors that could affect the Company's financial results is included in the Company's filings with the SEC under the "Risk Factors" sections and elsewhere in those filings.
